

The Oklahoma Federal Executive Board

*will once again host the nontraditional training forum: **Horse Sense for Leaders***

October 24 & 25, 2006

"There is a very fine line between offering leadership and guidance and getting in the way," Wood says. "It's not about submission. It's not about what you put on the horse's back. It's about what we put in his head."

The goal of this program, built around observations of Woods equine training sessions, is not to imitate the cowboy's techniques. It is to listen to his running monologue and generate questions about our individual leadership styles, as well as gain new insights.

Observers can see effective leadership in action and its results, minute by minute. Questions to ask include how the relationship is defined, setting expectations, communication, motivation and the definition of success.

One day is spent observing and learning from the horse trainer and the horse, ½ day is spent in the classroom discussing implementation possibilities of lessons learned.

Each person will come away with a different set of lessons; not so much about 'new lessons' in leadership, but insight into what they already know.
